

## AFTER-MOUSE.COM Massively Expands Internationally

**Lyon, May 6th 2010 : AFTER-MOUSE.COM announces today the opening of 11 new offices in the world.**

The European leader in the development of tactile applications, AFTER-MOUSE.COM is riding high on the growth of these new technologies and announces its international deployment. The company will therefore explore new markets with the creation of 11 new offices in 9 countries : in the United Kingdom (London), in Germany (Munich), in Switzerland (Genève), in the Netherlands (Amsterdam), in Italy (Milano), in Spain (Barcelona), in the United States (New-York, Chicago, Silicon Valley), in the UAE (Dubai) and in Canada (Toronto).

*« I am proud to see the Company growing internationally after only one year of existence. We have worked very hard to create innovative applications, stable and functional. We are today working hand in hand with Microsoft, in collaboration with many international key accounts with the objective of being the world leader by the end of the year. »* says Nicolas CHAILLAN, CEO of AFTER-MOUSE.COM.

AFTER-MOUSE.COM already has to its credit more than 20 applications developed for key accounts and announces an even more successful year 2010.

### *More information about AFTER-MOUSE.COM*

Created in 2009, AFTER-MOUSE.COM is the European leader in the development of tailored « multi-touch » and « multi-user » tactile applications on all products (screens, tables such as Microsoft® Surface®, tablet PCs or tactile walls). Directed by Nicolas CHAILLAN, the company is an official partner of Microsoft (BizSpark, IdEES, Microsoft® Surface® Strategic Partner).
